	IN PR NC	IN PR NC	IN PR NC	IN PR NC	IN PR NC
Strategies:					

Write the individual's highest priority goals (e.g., requesting desired items, self-calming techniques, transition skills) in each of the goal columns. Write the individual's typical daily activities in order of occurrence in the left column. Record strategies to assist the individual in meeting his or her goals for each activity in the space provided. Record if the goals are achieved in the blanks in the center by circling IN = independent, PR = prompted, NC = not completed.
